

Dear Guests,

We have an electric car charger that you can use.

It's called the Go Zero Optimus EV charger, and it can fill your car with 20-30 miles of range per hour, depending on the type of electric car you have. It's the best way to charge your car while staying at our property.

To use the charger, follow these steps:

- Scan the QR code or go to the website.
- Plug your car into the charger.
- Choose how long you want to charge for.
- Pay for it and wait for the charger to start**

**You will only be charged at the end of the charge session for the exact amount of electricity you used.
